Caching, Weapons Burial Container

Dear Sir:

Enclosed is the Summary Report on Task Order No. D, which describes the highlights of the research performed from May 29, 1956, through April 30, 1957.

The prototype container developed under this Task Order satisfies the originally stated requirements. However, a few minor modifications have been discussed and these merit investigation. To this end, we have started the investigation of these selected modifications under two Work Orders of the general-services task. After this research is concluded, it is anticipated that consideration will be given to the preparation of a larger number of prototype containers.

In accord with your recent request, we are enclosing some working drawings of the Task Order No. D container.

We would appreciate any comments that you or your associates might care to make with regard to the research.

Sincerely, /

25X1
